290g

9.9oz (290g +/-5g)

Average 320mm

16x20

4-1/4", 4-3/8"

KEY FEATURES

F.C.P

(FLEX COUNTER PARTS)

The racket frame is designed to be box shape with gradual slope which reduces air resistance. It increases swing speed and creates great power shot.

STRING PATTERN

16x20

The racket frame is designed to be box shape with gradual slope which reduces air resistance. It increases swing speed and creates great power shot.

F.C.P

(FLEX COUNTER PARTS)+ a

"F.C.P." + Premium Carton 30T are equipped in the 3 and 9 o'clock portions (sweet area) of the racket. This minimizes face surface deformation when hitting the ball and enables you to instantly convert contact from your opponent's power shots into energy for a return.
